ABOUT THIS DISCUSSION COURSE

Seeing Systems: Peace, Justice, and Sustainability discussion groups connect the dots between some of society's most current and pressing challenges. Through reflection, connecting with each other, and committing to action, participants learn together how to find pathways to activate powerful change in our everyday lives.

Explore the interconnectedness of our current crises, delve into the tangled systems that create and reinforce injustice, and expand your people power to demand change within these systems for good. Join us!

SESSION ONE

it's all
connected

SESSION TWO

peace
talks

SESSION THREE

justice for
the whole
community

SESSION FOUR

understanding
systems

SESSION FIVE

responding
to systemic
violence

SESSION SIX

co-creating
living peace

BENEFITS OF THIS COURSE

- Be introduced to values, visions, and practical actions to take.
- Become aware of entrenched values and assumptions that reinforce destructive practices and unhealthy systems.
- Develop systems-thinking skills to see the connections between and promote peace, justice, and sustainability.
- Be inspired to become leaders toward peace, justice, and sustainability in communities and spheres of influence.

ABOUT ECOCHALLENGE.ORG

Since 1993, Ecochallenge.org has provided ways for everyone to connect the dots between our actions, our impact, and our will to create significant environmental + social change. Together, we witness how our collective behavior connects with a better shared future.
