

Save money. Save time. Save the planet.

stop food waste challenge

Did you know?

About one-third of the food collected for composting is leftovers or unspoiled food that could have been eaten.

All that wasted food adds up to wasted money!

Ready to take your composting to the next level?

Join the Stop Food Waste Challenge to learn better strategies for buying food you'll eat and eating the food you buy.

The challenge runs August 1-31.

Join now by scanning the
QR code or visiting
